SHOW UP Hobby

Micro bottle Thinner / Hybrid Thinner

Fast・Medium・Slow（３types）

Fast

It is the fastest drying thinner among the 3 types. It is suitable at lower temperatures below 10°C. Ideal for painting small areas.

Medium

It is a standard type thinner, which can be used for various purposes. It is suitable for temperatures of 15°C~25°C.Versatile thinner from air brush paint and brush painting.

Slow

Among the 3 types, it is the slowest drying thinner.
It is a thinner that prevents bleaching at high temperatures and high humidity.
Suitable for painting large areas.
It is also suitable for brush painting because it is easy to blend with the brush.

＊＊

It is possible to blend different types of thinner at different drying speeds, so you can adjust to your desired drying method.
