SUK-05 Gold

SUK-06 Green

SUK-07 Copper Apricot

SUK-08 White

Operation Manual

Thank you very much for buying our product.

The size of KRONOS is 150micron even though the current sizes of pearl pigments are generally 20~30micron. Also the particle of KRONOS is pretty big and its color unevenness doesn't come out easily even if it's painted on dark base colors like black color and finishing is pretty easy after painting top coat clear even though particle of general pearl pigments are small and typically painted on light colors like white.

1. Take a choice the number within of 500~800 of sandpapers for finishing the surface preparation.
2. Paint the base color after finishing the surface preparation.
3. KRONOS is a type of dry powder. Please use KRONOS with your daily clear in 2% diluted form. (Both non hardner and hardner are acceptable.) Have intervals of about 5 minutes after painting KRONOS every time.
4. Finish painting KRONOS and paint top coat clear.
5. Polish a surface clean as usual after it dries.

dilution ratio of 1kg of KRONOS

KRONOS	Clear	Thinner
20~30 g	1000g	Based on using Clear

Cautions

When you handle this product, make sure to use rubber gloves and glasses to protect your skin and eyes.

In case it gets into your eyes, wash them with running water thoroughly and see a doctor.

In case it comes into contact with your skin, please wash it thoroughly until the slimy feeling is gone.

If you feel pain and something amiss, ask a doctor for instruction.

After use, make sure to close the lid firmly and leave it where it dark and cold, away from the direct sun.

Please keep it away from young children.
